Dear Clerks,

Patching Parish Council is pleased to have been copied into correspondence issued by Clapham Parish Council (attached) relating to A27 Worthing to Lancing improvements consultation and specifically calls from some quarters for a "northern by-pass". Patching Parish Council understands the northern by-pass option proposes routing of traffic from the A27 at Shoreham via the A283 to Washington, then south on the A24 to Findon and then along the A280 (Long Furlong) to a point west of Worthing.

Whilst we also understand that Highways England's emerging proposals appear to favour consideration of junction and traffic flow improvements along the existing route as opposed to a northern bypass, Patching Parish Council has made written representations to South Downs National Park, Arun District Council, West Sussex County Council, and MP Nick Herbert urging clear rejection of a "northern bypass".

In common with Clapham Parish Council, Patching Parish Council will respond to the formal consultation due to open this spring. However Patching Parish Council would welcome your consideration of an additional submission being made on behalf of all those parishes that would be materially impacted by a northern bypass option. We feel this would add further weight to the consultation.

We welcome your views.

For and on behalf of Patching Parish Council

Many thanks for your offer of a site visit to look at flooding on the Ashurst Road. I know you are away on leave and will not see this until 24th April. I have contacted Mr Frans de Boer, the farmer at Wappingthorn Farm who owns the land where the flooding originates and he is willing to join us for the site meeting. He has proposed Thursday 27th April at 12noon and has kindly offered that we can meet and park at the farm (as there is little safe parking on the road) and then walk through his fields to access the trouble spot. Please let me know if that time is suitable for you. I am also trying to contact the farmer at Calcot Farm a little further along the Ashurst Road as there is a similar problem there with water escaping from the farm entrance onto the highway, and I hope to wrap the two issues up with one Operation Watershed application if possible.

I am hoping you will be able to comment on the technical aspect of the two locations so we have an idea of what work we are approaching contractors to bid for.

Kind regards

On 12 April 2017 at 08:23,

Dear Ms Muncey,

I have been passed your request for a site meeting regarding the flooding issues on Ashurst Road.

I am happy to organise such a meeting, however, I am on leave next week until the 24<sup>th</sup> April. If you could provide me with a preferred date/time after the 24<sup>th</sup>, I will update my diary accordingly and meet you onsite to discuss the issues further.

I look forward to your response.

Dear Sir/Madam

I'll forget the lane that goes from Steyning to the River  
 and the downs how Jack and Tom's side  
 lay to the sun. The wind comes off the sea and at the sea  
 they never knew till now that life in old days was so fair.  
 But now I know it on this filthy car-pested ditch  
 and every shell was kill or spoil and God alone knows which.  
 And I am man, a beast of prey, and this trench is my fair  
 to God, I never knew till now that those days were so fair.  
 And we assaill in half an hour and it's a silly thing  
 to forget the lane that goes from Steyning to the River  
 written by John Stanley, Puffin using the name Puller Johnson  
 2nd Battalion, Yorkshire Regiment on 7th December 1915 in a  
 trench below the sea. The original stone was placed in the  
 lane by the memorial committee in 1917. As the trench was  
 obliterated and replaced, after damage to the memorial in 1917.

Poem on the Stone
