

Freedom of Information request regarding copy of recording of Playing Field Committee minutes, with confidential item removed.

Received 22.7.15.

‘Accordingly, please do not delete your recording and please treat this as a formal request under the FoI for a copy of the recording excluding the confidential item. I think you are aware that the ICO expects edited versions of documents to be produced if there are confidential aspects which need removing and that a recording is a “document” for these purposes.’
