

SPC response to FOI received 12.03.15

Hi

Steve Coberman, Clerk at Upper Beeding, has been able to track down an e-mail that seems to have got lost in my system.

Please see copy below, for his request and my response.

Kind regards

Rebecca Luckin
Clerk to the Council

Subject: RE: CCTV

Hi Steve

CCTV was put in before I joined Steyning.

You will need a CCTV protocol and to be mindful of the law and regulation regarding it's use. I have to say, we rarely need to access the footage, but it may be acting as a deterrent by being in place.

I will need to go back through the accounts to find the costs and specification. It might also be worthwhile consulting with your residents prior to committing to CCTV, since there was serious opposition following installation in Steyning.

Kind regards

Subject: CCTV

Rebecca,

We are contemplating the use of CCTV to protect our playing field, sports hall, and changing rooms (or maybe just the buildings), but have little expertise in this area.

I understand that Steyning have installed CCTV in their facilities.

I was therefore wondering if you could let me have some idea of the equipment you have, what it costs to install and operate, and whether or not you think it has proved a worthwhile investment. Any information will be helpful.

Many thanks.

Steve Coberman
Clerk to the Council
